

AGRO M-10DM

SEASONAL MOTOR OIL FOR DIESEL ENGINES.

SPECIFICATIONS:

SAE 30

API CD

DESCRIPTION:

It is Intended for lubrication of high-powered turbocharged diesel engines operating in severe conditions (trucks of the MAZ type, road trains, tractors, city and intercity buses, quarry dump trucks, bulldozers, heavy industrial tractors), and medium-powered moderately supercharged or non-supercharged diesels with increased mileage between oil changes.

It is produced from mineral base oils with high-quality additives.

BENEFITS:

- A large reserve of alkalinity provides an excellent washing and neutralizing ability of the oil during the entire period of operation;
- Increased anti-wear and anti-corrosion properties;
- It has high thermal stability;
- It is characterized by resistance to foaming, guarantees excellent lubrication of parts;
- Ensures long mileage between oil changes.

TYPICAL CHARACTERISTICS:

Kinematic viscosity at 100 °C, mm ² /s	12.4
Density at 20°C, kg/m ³	892
Viscosity index, min	91
TBN mg KOH/g	8.5
Flash point in open crucible, °C, min	236
Pour point, °C	-18

Packing	Vendor code	Barcode
