

YUKO M-8V

ALL-SEASON MINERAL MOTOR OIL.

SPECIFICATIONS:

SAE 20

API SD

API CB

DESCRIPTION:

It is used all-season in medium-pressure gasoline engines of cars and trucks, as well as as a winter oil for medium-pressure tractor diesel engines.

It is produced from mineral base oils and a special set of additives.

Recommended for use in ZIL, GAZ, UAZ cars with a permissible replacement interval of up to 18,000 km.

BENEFITS:

- Provides a "cold" start of the engine in winter in a temperate climate zone;
- Protects against varnish and carbon deposits, ensures minimal wear of engine parts;
- It has high thermo-oxidative stability;
- Prevents corrosion during operation or long-term parking of the car.

TYPICAL CHARACTERISTICS:

Kinematic viscosity at 100 °C, mm ² /s	8.1
Density at 20°C, kg/m ³	885
Viscosity index, min	98
Flash point in open crucible, °C, min	220
Pour point, °C	-25
TBN mg KOH/g	4.5
