

TRANS 75W-90

UNIVERSAL SEMI-SYNTHETIC TRANSMISSION OIL.

SPECIFICATIONS:

SAE 75W-90

API GL-4

DESCRIPTION:

Used in modern mechanical transmissions of passenger cars and trucks, differentials, transfer cases, and other units, where the use of transmission oil of API GL-4 grade is recommended.

Produced of high-quality base oils with modern additives package.

BENEFITS:

- Good lubrication and easy cold start including at low temperatures throughout the service life;
- Excellent frictional properties ensure smooth gear change and quiet operation;
- Consistently high performance in various operating modes;
- A high level of wear protection within a wide load range;
- Has increased oil drain period due to the high thermal stability.

TYPICAL CHARACTERISTICS:

Kinematic viscosity at 100°C, mm²/s	15.5
Density at 20°C, kg/m³	889
Viscosity index	140
Flash point in open crucible, °C	210
Pour point, °C	-30
