

CIATIM-201

SPECIAL FROST-RESISTANT AND REFRACTORY GREASE.

SPECIFICATIONS:

NLGI 2

DESCRIPTION:

It is intended for lubrication of friction nodes of precise mechanisms in aviation, electromechanical and other engineering.

TSIATIM-201 grease is operational for a long time in the temperature range from -60 °C to +90 °C. In terms of low-temperature characteristics, TSIATIM-201 lubricant is one of the best in Ukraine.

BENEFITS:

- Excellent low-temperature characteristics;
- Lubricant does not solidify under the influence of elevated temperatures or during storage;
- The possibility of using lubricant in friction nodes of all types;
- It has refractory properties;
- Warranty period of storage is 5 years.

TYPICAL CHARACTERISTICS:

Efficient viscosity at -20 °C, Pa • s-1, no more	1000
Tensile strength at 20°C, Pa	500
Dropping point, °C	196
Colloid stability, %, not more	22.8
Penetration, mm • 10 -1	215

Packing	Vendor code	Barcode
Bucket tin 17kg	001349	482007024152
Tin can 800g	009914	482007024151
