

POWER SYNT 4T 10W-30

SEMISYNTHETIC MOTOR OIL FOR FOUR-STROKE ENGINES OF GENERATORS.

SPECIFICATIONS:

SAE 10W-30

API SL

API CF

JASO MA2

JASO T903:2016

DESCRIPTION:

It is used for lubrication of modern diesel and gasoline four-stroke engines of business and household generators.

Provides easy start, effective lubrication, even at low temperatures. It has an extended drain interval, according to the recommendations of the equipment manufacturer.

BENEFITS:

- Year-round use;
- Designed for the engines of frequently used power equipment;
- Due to the special high-viscosity formula, forms a durable oil film, capable of withstanding the continuous loads;
- Minimum evaporation loss rate, therefore - low consumption;
- Provides effective protection of the engine parts against corrosion and carbon formation;
- Improves engine compression, increasing its power.

TYPICAL CHARACTERISTICS:

Kinematic viscosity at 100°C, mm ² /s	10,8
Viscosity index	140
Alkalinity, mg KOH/g	6,7
Pour point, °C	-32
