

TRANS HD 75W-90

UNIVERSAL HEAVY DUTY TRANSMISSION OIL.

SPECIFICATIONS:

SAE 75W-90

API GL-5

DESCRIPTION:

Used in modern mechanical transmissions of passenger cars and trucks, differentials, transfer cases, and other units, where the use of transmission oil of API GL-5 grade is recommended.

Produced of high-quality base oils with modern additives package.

BENEFITS:

- A high level of wear protection within a wide load range;
- Good lubrication and easy cold start including at low temperatures throughout the service life;
- Consistently high performance in various operating modes;
- Has increased oil drain period due to the high thermal stability.
- Excellent frictional properties ensure smooth gear change and quiet operation;

TYPICAL CHARACTERISTICS:

Kinematic viscosity at 100°C, mm ² /s	14,5
Density at 20°C, kg/m ³	875
Viscosity index	159
Flash point in an open crucible, °C	216
Freezing point, °C, not higher	-40
