

YUKO MOTOMIX 2T

MINERAL MOTOR OIL FOR TWO STROKE ENGINES.

SPECIFICATIONS:

API TC

JASO FB

DESCRIPTION:

Intended for lubricating systems of air-cooled two stroke engines of modern motorcycles, motorbikes, chainsaws and other machinery.

Used as a component in oil-fuel blend in a ratio recommended by machines manufacturer. Standard injection varies from 1:32 to 1:50.

BENEFITS:

- Provides good lubricating, anti-wear, anticorrosion and detergent properties due to the active additives package;
- Provide carbon removal from the combustion chamber;
- The possibility of year-round use;
- Provides long service life of ignition plug;
- Minimizes maintenance costs;

TYPICAL CHARACTERISTICS:

Kinematic viscosity at 100°C, mm ² /s	8.5
Density at 20°C, kg/m ³	890
Viscosity index	90
Alkalinity, mg KOH/g	0.85
Flash point in open crucible, °C	215
Pour point, °C	-25
